Chas. Spindler, the well-known commercial traveler, has returned to his home here after an absence of several months. During his travels he has visited the principal States in the Union. Mr. Spindler will spend several days with his family before taking to the road again. His many friends here were glad to see him after his long absence.

A large rattlesnake was killed Sunday afternoon near Boyes Springs. The reptile possessed nine rattles and a button. The rattler was discovered near the Northwestern Pacific railroad crossing at that place by a woman guest, who notified some of the men folks lounging around the bath house, who hunted up the snake and dispatched it with a rock.

Our worthy townsman, Charles F. Carmer, today passes another milestone on the journey of life and rounds out 74 years of youthful age. That he may live to celebrate many more such occasions is the wish of his many friends.

J. M. Davis, general superintendent of the Southern Pacific Company, in his official car, the "San Jose," and W. A. Whitney, superintendent of the western division of the same company, in his official car, the "Alameda," passed through here on Friday of last week en route to the Sebastopol apple show.

The architect of this screed takes this opportunity to return many thanks to Sam Lewis, the popular butcher of Sonoma, for the toothsome chunk of venison presented to ye scribe on Sam's return from his late hunting trip in the wilds of Mendocino county. Thanks very much, Samuel, may your shadow never grow less.

Bill Block, a rising young chap of Vineburg, was one of the many passengers for the Sebastopol apple fair on Saturday evening's Southern Pacific train.

Heine Brunner, the well-known bus-driver for Crane's Hotel, while canvassing for passengers on the arrival of the Southern Pacific train here Wednesday morning, left his horse for a few minutes when it suddenly became frightened and ran away. Fortunately no one was in the vehicle. T. H. Baines, who happened to be walking toward the station, jumped in front of the frightened animal and seizing him by the bit brought him to a standstill and averted a smashup.

ACQUISTAPACE'S SLAYER CONVICTED

Manslaughter Was Verdict of Jury—Bettini's Lawyers Will Appeal the Case to Higher Court.

The District Attorney's office of Sonoma county won another victory for law and order in the Superior Court last Saturday, Judge Emmet Seawell presiding. when the jury in the case of The People vs. Bettini, charged with murder, brought in a verdict of manslaughter.

Bettini's crime was the wanton slaying of James A. Acquistapace on the porch of deceased's summer resort at Agua Caliente last spring. It is true the crime was not premeditated and the jury in rendering a verdict of manslaughter evidently took that view of the matter. Nevertheless, it was a cruel killing, as Bettini's victim, who was a remarkably law-abiding citizen, was unarmed when his slayer venomously fired the shot that blotted out Acquistapace, and ended his career on this earth forevermore for protectlng his wife from the insults of a drunken blackguard.

The prosecution of Bettini was ably conducted by District Attorney Clarence F. Lea and Assistant District Attorney J. W. Ford, who in upholding the dignity of the law in this case have accomplished much in discouraging crime in this county.

The jury that convicted Bettini was of the very best citizenship of the county. It was composed of Sam P. Stevenson, L. J. Bills, Basil W. McGrath, Frank W. Goodman, Jas. W. Kinnucan, Edgar A. Brown, Robert Phair, George H. Corbin, John Churchman, Andrew J. Bullard, H. S. Guttermute and Israel Lukas.

The convicted man was defended by William F. Cowan and Rolf L. Thompson, two of the ablest criminal lawyers in this section of the State, who made a heroic but vain effort to secure an acquittal for their client, thus emphasizing the fact that the District Attorney of Sonoma county and his able assistants are deserving of all praise accorded them by people everywhere of being a terror to evil-doers in upholding the majesty of the law and bringing its violators to justice.

SCIENTIFIC HEALING WILL BE DISCUSSED

Dr. D'Evelyn Will Address the Mens' League on Prevention, Treatment and Cure of Disease.

A problem which interests every man and woman and one, too, which is demanding more and more the best thought of scientific men, is the question of the prevention, treatment and cure of disease.

Faith cure, mind healing and mental suggestion in their various forms of application to the relief of suffering humanity, have their followers and are more or less successful.

The attitude of medical authorities on these subjects is to be the theme of discussion before the Mens' League at the Congregational Church tomorrow (Sunday) evening.

Dr. Frederick W. D'Evelyn, a noted practitioner of San Francisco, will be the speaker, and for his text has chosen "The Inter-Relation of Mind, Soul and Matter as a Factor in the Treatment of Disease," as viewed from the standpoint of present-day medicine.

Dr. D'Evelyn is a deep student, a magnetic speaker and a gentleman of fine personality. He should be greeted by a large audience.

Four Straight for the Hi-Balls

Well, well! who says the Hi-Balls can't play ball. They defeated the S. A. S. of Fruitvale to the tune of 4 to 3, making it 4 straight and 5 out of 7 games. The features of the game were the playing and stick work of George Arnold and Geo. Weaver and "Doughnuts" trying some of his scientific stunts when chasing the ball. Arnold showed some class in the right field when he pegged a man out at home and shut off the trying run. Nessi pitched a remarkable good game, while George Block showed some good work behind the bat. The Hi-Balls are playing good ball and should have better support from the fans than they have been getting.

So let us all turn out and see them play when they line up with another city team. The score was as follows:

	R.	H.	E.

Judge Burnett on Woman Suffrage

At a Woman Suffrage rally held in Santa Rosa on Friday of last week Appellate Justice A. G. Burnett, one of the brightest lawyers in the State, declared himself in favor of equal suffrage in the following language.

"I am heartily in sympathy with the effort to promote equal suffrage. I cannot for the life of me understand how any intelligent, patriotic man can be opposed to it or why any sensible, progressive and liberty loving women should hesitate to assume the added responsibility of the ballot. It seems to me that the opposition to the movement is a reflex of that old barbaric spirit that contemplated women as inferior to man and whose mission it was to slavishly minister to the selfish wants of the 'Lords of Creation'."

A Dangerous Amendment.

Senate Constitutional Amendment No. 49 is the most dangerous legislation ever submitted to the people of California. It repeals the existing Section 19, Article XI, which permits any person to use the streets to supply water, gas and electricity, and prevents free competition in such services, which has been so effective in reducing rates.

It will give existing water and light companies perpetual rights in the streets and repeals the constitutional restraint upon them. Thus it will create hundreds of millions of dollars of franchise values, on which the people will have to pay interest in increased rates.

The courts have held that under the provisions of the existing section the companies supplying light and water do not hold any franchise for which the people must allow a value in regulating rates, or when purchasing the plants. The Legislature recently enacted a statute permitting cities to acquire by condemnation any water plant.

This proposed amendment expressly provides that a city purchasing any existing utility must pay for the franchise value, in addition to the physical value of the plant. Should San Francisco attempt to take over the Spring Valley Water Company under this amendment, it would have to pay millions for franchise, in additon to the actual value of the property. Any other city taking over an existing utility would have to do the same. The protests of the cities of the State, through the League of California Municipalities, a few years ago, caused the defeat of a bill in the Legislature having this same purpose as this amendment.

This amendment will compel cities to allow public utilities a value for franchise in regulating rates, although the franchises are but mere grants of a right to use the street. The value the corporations put upon franchises is the capitalization of the profit over and above a fair return on the money invested.

This amendment would set California back fifty years. It would legalize franchise values and add enormously to the power of public service corporations to plunder the people. It would destroy and invalidate the charter amendment adopted by the people of San Francisco last year, which requires all future franchise grants to be made on condition that the city can acquire the utility by paying for its physical property, without any franchise value.

It assumes to grant to cities the right to operate work for light, water, power, heat, transportation, telephone and other means of communication. As cites in California have been supplying their inhabitants with water, gas or electric heat, power and light for sixty years, this proposed amendment is no grant of power in this regard. The pretense of giving cities the right to acquire existing works is no grant of power at all. Under the existing Constitution, the Legislature may, and has, granted them this power. Both of these pretended grants look like molasses to catch votes.

The amendment would place dangerous limitations on the power of cities to impose conditions in the grant of franchises. It says that cities may permit persons to supply such services "upon such conditions and under such regulations as the municipality may prescribe under its organic law." This means that every condition and regulation to be imposed in the grant of franchises for every kind of public service must be specifically provided for in the charter of the city. It is impossible to foresee the many contingencies that arise in the relation of cities and public service companies. All charters provide for the words "other conditions" to be inserted in franchises, in addition to those required by law. The cities and the State have found it necessary to make their powers in all matters of legislation broad and elastic. Restricting and narrowing them, as this amendment does, would do infinite harm. Small and inexperienced cities would be at the mercy of any schemers who sought to exploit them.

This amendment would deprive the State of all power to exercise any restraint upon cities that might attempt to give away the rights of future generations. It has been publicly stated that it will permit the granting of indeterminate franchises. Not only will it permit that dangerous form of franchises without restraint of any kind. There is no limit to the schemes that may be imposed on cities under this amendment. Cities in California as well as in other States, have, under the lash of corrupt corporations, changed their organic laws, or made franchise grants, that unjustly burdened posterity No such unrestrained power should be given to any city.

STOMACH LIVER LUNGS

Each of the chief organs of the body is a link in the Chain of Life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which *seem* remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

The strong man has a strong stomach. Take the above recommended "Discovery" and you may have a strong stomach and a strong body.

Given Away.—Dr. Pierce's Common Sense Medical Adviser, new revised Edition, is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

VINEBURG NEWS ITEMS

"Easy Jim" Tells in an Interesting Way all About the Week's Happenings in and About His Section of the Valley.

Fred. Batto made his regular business trips to San Francisco on Monday and Petaluma on Wednesday.

Messrs. Jesse Burris of Sonoma and Robt. P. Hill of Eldridge transacted business at Batto's spur Saturday.

Attorney Frank Sprague, one of Sonoma's leading legal lights, was a visitor to Vineburg and Batto's spur Sunday.

Extensive improvements are being made on the new chicken colony at Shellville and a number of families are settling there.

Mr. and Mrs. Harvey Manuel and children were the guests of Mr. and Mrs. Eph Cutter last Sunday and returned to the city in the afternoon.

"Happy Harry" Andrieux, one of the leading citizens of Wingo, was shaking hands with friends and relatives here Sunday. Always welcome, Harry.

At a meeting of the Box Car Improvment Club last Monday evening it was resolved to issue bonds for the purpose of building an ice factory to keep down the "hot air."

A number of people alighted from both trains of the Northwestern Pacific at this station Sunday, mostly homeseekers is quest of a suitable place to locate in this part of the valley.

Oh, yes! we eat meat down this way if you judge from the lively manner Peter Orsi gets around with Henry Weber's Central Market meat wagon. Of course we like "Little Pete," but we like the good meat better.

Quite a large number of Vineburg residents attended the funeral of the late Victor Jansen at Sonoma Sunday afternoon. The deceased gentleman was highly respected in this part of the valley and had a host of warm friends here.

A new firm of contractors has started in business here under the name of Rouquie & Hamilton. They have just completed a fine tankhouse and erected a windmill for parties here. The new firm will contract to build anything from a chicken coop to automomobiles, air-ships, incubators, fruit trays or a battleship. All work will be guaranteed.

"Violia Vineburg's" place will be filled in these columns by "Fannie Ferndale," a new writer. Miss Vineburg is absent.

Mr. A. F. Nelson has returned from his trip to Europe and has settled down with his family in his cosy cottage on the Napa road.

Master Gordon Ladlee, son of Mr. and Mrs. William Ladlee of this place, while playing at the noon recess at the school house fell and broke his left arm. Dr. Leix was called and attended the little patient who at the last reports was getting along nicely.

Miss Marie Mitchell of "Oak Leaf Cottage," one of the most charming young ladies on the Hyde tract, will return in a short time from her vacation in the southland. During her absence she has visited Los Angeles, Santa Catalina and other points of interest.

We heard that on the 9th of September the Native Sons of this part of the valley would go to Santa Rosa in Pullman palace cars, so we asked our good natured agent about it, but Mr. Rubke did not know. But we believe. Who would not "be game, boys?"

Jack Murray, one of Sonoma's popular horseshoers, has now become a resident of Vineburg for keeps and we notice that his honor, the Mayor, nor Jim Small don't have much to say about the next Vineburg election, as many think Jack will be next Mayor. Wow!

Mrs. Edward Johannsen of this place, who went to San Francisco on Monday to have an operation performed, was successfully operated upon at Trinity hospital Tuesday. The lady's many friends in this valley will be pleased to know that she is getting along nicely.

Messrs. Joseph T. Groskopf and Philip Bill, Jr., two well-known young men of this place, left on the Northwestern Pacific train last Sunday to enjoy a vacation. During their absence they will visit the State Fair at Sacramento and other points of interest. Oh, you Jaspers."

TEN YEARS FOR BEN BETTINI.

Judge Seawell Imposes the Highest Sentence Allowed by Law for Manslaughter---His Remarks

Ben Bettini, the slayer of Jas. A. Acquistapace, who was convicted in Judge Seawell's department of the Superior Court last Saturday afternoon of manslaughter, came up for sentence Thursday.

His honor imposed the extreme penalty of the law for the crime of manslaughter and sentenced Bettini to the penitentiary for ten years. In passing sentence Judge Seawell made these remarks:

"The jury showed great mercy to the defendant in this case. There is no doubt in my mind that the defendant in killing the deceased did not act in self defense. That is shown by the testimony of the defendant himself. Taking a human life is a serious matter. Often it seems easier to convict a man for stealing an old cow or horse or $20 than it does to convict him of taking a human life. There should be a way to make men hesitate before killing another. In this case the defendant carried a pistol apparently without any reason for it; he claims the deceased struck him, but there were no marks on his person to indicate his claim was true; there is no evidence that the deceased was of a quarrelsome disposition; and there is no evidence that the defendant was not quarrelsome. The most punishment that the defendant can receive under the charge of which he was convicted is light, considering the facts of the case. If any man goes to another's house and abuses him, and when he is ordered away, or slight force used on him to make him go away, can take out his pistol and shoot and be justified, there is little protection to human life. We hear in court too much self defense. The law justly requires that before one man can rightfully take another's life, he must act under fear and necessity alone."

Notice to Property Owners.

Notice is hereby given that all property owners on the line of the sewer, now building, will be required to purchase 4-inch sewer pipe to connect with the main sewer in the center of the street to the sidewalk curbing in front of their premises. The contractors for the construction work may excavate for the property owner and lay his pipe if he so desires.

The Board would suggest that this be done as it will save the property-owner money to have the connection made now, although it is not compulsory at this time.

For further particulars see Mr. F. Cherry, superintendent of construction. By order Board of City Trustees of Sonoma.

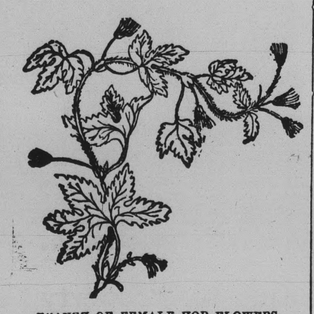
REASONS FOR USING HOPS IN BEVERAGES

Taste and Aroma as Well as Preservative Quality Are Desired.

Some American growers claim that, inasmuch as American hops in many cases are just as rich in the soft resins as the best European hops, their brewing value ought to be equal to that of the Europeans. They have not, however, been able to convince American brewers of the accuracy of this view. They will try to do so at the barley and hop exhibition in Chicago in October, 1911. The principal trouble, however, with American hops as they reach the market is that they are picked carelessly. The only part that is of value to the consumer is the cone, and everything in the shape of stems and leaves that is mixed with the grains not only diminishes the amount of available material, but introduces a decidedly injurious element, the leaves and cones being rich in tannic acid, which imparts a stringent and harsh taste.

In the international barley and hop exhibition, which will be held in Chicago in October, 1911, the item of



BRANCH OF FEMALE HOP FLOWERS.

clean picking will cut an important figure in the valuation of the hops that will be entered for prize competition.

The great importance of this exhibition will lie in the fact that it will tend to put the valuation of hops upon a substantial basis of facts rather than of individual preferences.

All exhibits at this exposition will be in the names of growers, no dealers being admitted to the competitive exhibition. The exhibition is in charge of the committee on awards, 1508 Republic building, Chicago.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm will master catarrh or cold in the head easily and pleasantly. All druggists sell the 50 cent size. Ely Brothers, 56 Warren Street, New York.

The Balm is used without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation.
